## Maintenance Corner

### Snow and ice on gutters/downspouts

It was fun to snap the icicles from the gutters when we were kids...and we thought they were delicious elongated ice cubes, as I recall. (Yuk.) As a homeowner, it is important to clear excess snow from gutters - and especially the downspouts - as soon as possible to allow the gutter to drain. Severe ice and snow build-up can cause extensive damage, and such damage is not typically covered by the limited warranty.

The Excitement Is Building!

## New employees at Bachman Homes

It is very ironic that during a time of economic downturn Bachman Homes is busier and more optimistic about custom home building than ever before. As such, we are excited to add three new employees to our company: Bill Gillette, Bob Lynn and Pat Litz. Bill and Bob have framed most of our homes during the past 15 years, and Pat brings additional experience and energy to the mix. By creating this group of carpenters/artisans we will provide better project controls. In addition, this team provides the flexibility to undertake additional projects, such as remodels/additions, etc., and improve the efficiencies of our day-to-day operations.

Welcome Bill, Bob and Pat!
