Project Spotlight

Bachman Homes swimming pool — time to cool off with some family fun

We are often asked, "Do you install swimming pools?" Yes, we do! An in-ground pool can be built in approximately two weeks. The adjacent landscaping is what takes the most time— allow an additional two-three weeks, depending upon the complexity of your project. Our climate affords us about five months of average high temperatures exceeding 70 degrees. Please contact Bachman Homes if a pool is in your future!

Maintenance Corner

Concrete Floors

A concrete sealer, available at paint stores, will help you keep an unpainted concrete floor clean. Do not use soap on unpainted concrete. Instead, use plain water and washing soda or, if necessary, a scouring powder. Bachman Homes can recommend several local companies to perform this service for you.

The Excitement Is Building!

Building Sites

We have several building sites available for new custom homes. Please see details below!

Bachman Homes

Lot 18, Canterbury Crossing

We have one of the last remaining lots in the Canterbury Crossing development. This is located on a quiet cul de sac (Dover Circle) with woods at the rear. Proximity to Centre Hills Country Club, and convenient walk to Panorama Village Elementary and Mount Nittany Middle School.

*"Talent is God-given. Be humble.
Fame is man-given. Be grateful.
Conceit is self-given. Be careful."
- John Wooden*
