

Project Spotlight

Featured project at Parade of Homes, October 1-3, 2010

Bachman Homes custom designed and built this beautiful 4,600 square foot home to be showcased during the 2010 Parade of Homes. This project highlights a gourmet kitchen with granite countertops, cherry cabinets, and upscale appliances. The large master suite includes elegant master bathroom with digital interface shower system. In addition, the dramatic family room features a stone fireplace, hickory floors, and multimedia center. The finished basement is complemented with a walk-out to extensive landscaping and custom decking. This home is NAHB Certified Green. We look forward to giving you a personal tour during the event.

Maintenance Corner

Late Summer Fertilizing

The best way to maintain a healthy, weed-free lawn is to provide routine fertilizer applications throughout the growing season so the turf can compete against weeds and recover from stress. In our area, the best time to fertilize is late summer/early fall. This application is the most important because it aids the grass in its recovery from the heat and/or drought conditions of summer and stimulates root development. Further, it prepares your lawn for the harshness of winter and paves the way for a healthy lawn in spring when your fertilizer program continues. Bachman Homes can recommend a landscaping company to perform this service for you.

We hope you had a chance to join us during weekend games this summer at Medlar Field at Lubrano Park. We partnered with the **Mount Nittany Inn** for a between-innings event, and Bachman Homes donated \$500.00 to **Easter Seals of Central Pennsylvania**.

"If I were two-faced, would I be wearing this one?"

- Abraham Lincoln
